AUBURN ALUMNI ASSOCIATION

MAY, 1958

AUBURN, ALABAMA

As organization for personal solicitation gets underway—

\$125,000 Pledged To The API Emergency Fund

ANOTHER AUBURN FIRST PLACE—L. O. Brackeen, '27, API publicity director, receives Auburn's Silver Anvil award from H. Walton Cloke, (right) chairman of American Public Relations Association's judges and awards committee. Auburn won first place in APRA's "Institutions and Organizations" category.

API Wins Public Relations Award

Auburn has received a Silver Anvil, one of the highest awards in the public relations profession.

Auburn Faculty Elects Its New Officers

Newly elected officers of the Auburn General Faculty and the Faculty Council are: Dr. William S. Smith, associate professor of speech, president of the General Faculty and chairman of the Faculty Council; Dr. Earl I. Brown, head professor of civil engineering, vice-president of the General Faculty and vice-chairman of the Faculty Council; and Dr. Robert R. Rea, associate professor of history, secretary for both General Faculty and Faculty Council.

Serving as faculty officers during the past year were: Dr. Norman A. Brittin, professor of English, president and

(Continued on Page 3)

DR. W. S. SMITH . . . president

The Anvil was presented at the Silver Anvil Awards Dinner of the American Public Relations Association in New York City.

On hand for the presentation was L. O. Brackeen, '27, API director of publicity. The anvil, a national first place award, was won in APRA's "Educational Institutions and Organizations" category. Auburn was judged best in the division because of the success of its public relations program for the passage of Amendment Five last December.

Publicity Director Brackeen said, "This award is deeply gratifying because it symbolizes the achievement of a truly unified Auburn. In securing the passage of Amendment 5, all divisions of the Institution — administration, staff and faculty, students, and alumni from all walks of life—worked with all segments of business, industry, labor, and agriculture in one great concerted effort. I am further gratified at this time to note evidence of the same broad-based cooperation and dedication in the API Emergency Fund Drive."

H. Walton Cloke, chairman of APRA's Judges and Awards Committees, said, "We congratulate your institution on receiving an award for an outstanding public relations program. The committee considers it significant that your program won an award in the largest and most keenly contested competition in the history of APRA."

PERMIT THEM TO WORK

Every child who isn't learning anything, who is miserable, unhappy and raising Cain, should be taken out of school at age 14 and allowed to go to work.—Dr. Margaret Mead, anthropologist, lecturing in Denver, Colo. (As quoted in QUOTE).

Chairman Roy B. Sewell, '22, and Vice-Chairman Frank P. Samford, '14, announce that pledges to the API Emergency Fund now exceed \$125,000. Of the more than \$125,000 pledged, slightly more than \$50,000 has already been paid into the fund.

Campaign organization is now moving into high gear with the formation of county and city committees well underway. County chairmen appointed by Fund Drive Chairman Sewell are working with the assistance of county agents to form committees for personal solicitation of approximately 10 per cent of the Auburn Alumni. The remainder of the alumni will be solicited by direct mail.

Leaders in the Fund Drive note that the \$125,000 pledged provides ground for optimism but that the tough part of the campaign is yet to come. Most of the \$125,000 has been pledged in the advanced large-gift solicitation. Study of campaign experiences in similar fund drives indicates the necessity for a high percentage of alumni participation to assure final success in meeting the \$250,000 emergency need of the Auburn School of Engineering. Campaign leaders feel that enthusiastic response from the mass of the alumni will spell "quick success" for the drive.

The Birmingham News has gone on record with its belief that the alumni will give such a response. For the benefit of alumni who may have missed the News' complimentary remarks, they are reproduced here:

FOR A BIG VICTORY

The Alabama Polytechnic Institute has a major problem in bringing its mechanical and electrical engineering schools up to snuff. The schools have been discredited by the official accrediting agency.

President Ralph Draughon already had made it clear an emergency effort would be necessary to bring things up to a higher standard prior to a time when the Legislature can act. The school has now turned to its alumni, and the executive committee of the Auburn Alumni Association has accepted the challenge.

The alumni expect to raise \$250,000. That is not an enormous sum, but it is an amount which will take work to raise. The alumni are enthusiastic—aren't Auburn alumni always so? We wish them the best of luck in their campaign, and we have no doubt they will come through for "No. 1 in the nation."

—The Birmingham News

To Publish Honor Roll

Because enthusiastic response by the majority of the alumni will not only insure achievement of the \$250,000 Emergency Fund goal but will also represent a real manifestation of the Auburn Spirit, the Alumneues will begin next month the publication of a monthly honor roll. Contributors names will be listed according to class years. The amount contributed by the individual will not be published. Willingness to give what one can afford, rather than the ability to give some specific sum, is that which deserves commendation here.

Plans Made at Auburn Meet

Initial plans for personal solicitation were made in Auburn on May 9 at a joint meeting of the Alumni Association executive committee, Alumni Association vice-presidents, the API Board of Trustees, Fund Drive county

chairmen for Alabama, Fund Drive city chairmen from large cities in neighboring states, and other interested alumni.

County chairmen already appointed are: Charles W. Northington, '50, Autauga; Raymond Trammell, '25, Barbour; Melvin W. White, '42, Blount; Eldon A. Pruitt, '27, Bullock; Kermit R. Brown, '43, Butler; Ralph Bolt, '50, Calhoun; Velmer A. Turnham, '37, Chambers; W. O. Miller, '36, Chilton; Wiley C. Allen, '45, Choctaw; Warren M. McMahon, '34, Colbert; Tal Stuart, '40, Conecuh; Leland Cummins, '27, and Bellaire Krudop, '40, (co-chairmen) Covington.

Also, Rex Sikes, '31, Crenshaw; Harry Hooper, '36, Dallas; M. H. Moses, '35, DeKalb; Herman L. Harris, '36, Elmore; Gordon R. Isbell, Jr., '47, Etowah; Sam J. Renfro, '49, Fayette; John Harris, '39, Geneva; Joe Sledge, '43, Hale; Merritt Burns, '28, Houston; John H. Lanier, '49, Jefferson; J. Howard McClanahan, '43, Lauderdale; Charles T. Bailey, '29, Limestone; W. G. Little, '32, Marengo; Ken Lott, '41, Mobile; B. H. Stallworth, Jr., '29, Monroe; Frank Hawthorne, '46, Montgomery; Redus Collier, '27, Morgan.

Also, Thomas Irby Pope, '32, Perry; Walt T. Whitman, Jr., '33, Pike; James M. Jenkins, '26, Randolph; B. K. Naftel, '23, Russell; Eddie G. Downs, '49,

(Continued on page 2)

WILFORD BAILEY . . . scientist

W. S. Bailey Receives Science Fellowship

Dr. Wilford S. Bailey, '42, head professor of the department of pathology and parasitology, API School of Veterinary Medicine, has been awarded a Science Faculty Fellowship by the National Science Foundation for a year's work in the Philippine Islands.

His program in the Philippines will consist of a combination of research work, teaching, and field study. He will be affiliated with the University of the Philippines, where he has been appointed visiting professional lecturer in the College of Veterinary Medicine.

Exact date for initiating this program has not been established, but it will probably be Oct. 1 or Jan. 1. Dr. Bailey's wife and four children will accompany him to the Philippines.

I. T. QUINN . . . retires

Quinn Wants to Reap What He Has Sown

In a "Personal History Note" Joseph J. Shomon, editor of *Virginia Wildlife*, has posted an appropriate introduction to the story of I. T. Quinn, '13, who will retire next month from his position as executive director of the Virginia Commission of Game and Inland Fisheries.

Shomon says: "I. T. Quinn is a true Southerner, having come from a long lineage of proud Southern parents. He was born and reared in Alabama and has, since boyhood, been closely associated with the land and the great outdoors.

"He was educated at the Alabama Polytechnic Institute and soon embarked upon a colorful career in wildlife conservation.

"During the next quarter of a century, Mr. Quinn gained in stature, wisdom and prominence until today he ranks as one of the best known and one of the most authoritative persons in the game and fish management field."

I. T. Quinn has served in his present position for the past 12 years. Announcement of his plans to retire have brought laudatory reviews and editorials about his life and work in newspapers throughout Virginia.

"I. T.," as he is known to his many friends throughout Virginia, was born in Alabama and received his basic education at the Sixth District Agricultural School in Hamilton. He graduated with a degree in science from Alabama Polytechnic Institute, Auburn, in 1913.

Upon graduation from API, Quinn worked for two years as a high school principal and then entered the service of the U. S. Department of Agriculture. In 1922 he was appointed director of the Commission of Conservation of Game, Fish and Seafood of Alabama and worked in that capacity for 17 years.

At the outbreak of World War II, Quinn was called to Washington to perform war work in the U.S. Department of Agriculture.

In 1946 he accepted his present position as executive director of the Virginia Commission of Game and Inland Fisheries. During his tenure, the Commission has progressed a long way in wildlife conservation and now acts chiefly on the findings of scientific research to better manage game and fish for the sportsmen.

While director in Alabama and Virginia, Quinn has served as president of the International Association of Game, Fish and Conservation Commissioners, president of the American Fisheries Society, president of both the Southern and Southeastern Association of Game and Fish Commissioners, southern representative on the Migratory Bird Treaty Act Advisory Board for 14 years, chairman for six years of the National Committee on Wildlife Legislation and assisted in steering the Pitt-

American education as viewed from the editor's cubbyhole—

Does Equal Opportunity Exist?

BY JERRY RODEN, JR.

Sad indeed to contemplate is a rebel heritage sunken into complacency. American immigrants from the early seventeenth century to the present have been, generally, rebels against the confinement and conventions of their native societies. Of course some have sought chiefly adventure, others material gain, and still others simply freedom from some specific restraint; but above everything else—we like to believe—the great majority came in pursuit of an ideal, an ideal that we are prone to define loosely as Democracy. Equal Opportunity has been at the very core of this ideal. To let the ideal deteriorate into satisfaction with a rather unequal opportunity to become fat, soft, and wealthy—to live with minimum physical and intellectual disturbance—is to render the ideal a shabby delusion.

Equal Opportunity as an ideal concept must embody the belief in a reasonably equal opportunity for the individual to develop the totality of his innate intellectual powers (rather than just a chance to join the animals in a scramble for the garbage trough). Reasonable equality of educational opportunity constitutes the vital first step toward realization of the ideal. Such equality does not now exist.

Examine the Evidence

Glaring evidence of inequality of educational opportunity appears in print almost daily; however, the form of presentation often permits us to overlook the significance of the inequality. Let us re-examine some of that evidence as it relates to the high school student with a college-potential intelligence. (The undemocratic aspects for the student without college potential is reserved for the next issue of the *Alumnews*.)

Reliable statistics show that each year at least 200,000 high school graduates with excellent college potential never enroll at any college or university (In fact one of each five in the top fourth of the intelligence range never finishes high school). A number of factors may influence this heavy loss of potential teachers, scholars, scientists, doctors, etc. But we cannot honorably evade a democratic society's responsibility by permitting ourselves to become so involved with the psychological complexities of motivation that we forget the simple, obvious, and effective means of encouraging the development of youthful curiosity.

Inspired Teachers Needed

Natural curiosity may be sublimated into a burning thirst for knowledge by either sensitive parents or inspired teachers. Maximum achievement for the process occurs when both work in conjunction. Society can scarcely change a child's parentage, but it should provide more than a small fraction of the inspired and inspiring teachers needed. For a teacher to be both

inspired and inspiring he must: (1) know and love his subject; (2) be permitted to teach with reasonable freedom from outside interference and financial embarrassment; (3) be given class loads that allow considerable time for study and grading papers; (4) be accorded the respect that his high calling deserves and the recognition that his individual work merits.

Any child who has not had the benefit of at least one truly inspired teacher in each of the general areas of languages, the humanities, mathematics, and science has not been given the full privilege of self-discovery. His native youthful curiosity may well be smothered by monotony rather than fanned into a burning desire to know. Mere statistics cannot measure the quality or amount of inspired teaching but they do indicate the extent of society's failure to provide the maximum opportunity for inspirational instruction.

Alabama Schools Unequal

Let us use Alabama's schools as an example of public shortcomings in this respect. Of the state's 364 white, public high schools, only 113 are accredited by the Southern Association of Colleges and Secondary Schools. Two principal requirements of the Southern Association that most unaccredited schools cannot meet are (1) a maximum teacher load of 160 pupils per day with no more than 40 pupils per class and (2) use of teachers with either a major or minor in all the subjects they teach. Thus, 251 of Alabama's high schools do not regularly meet the minimum conditions of requirements 1 and 3 (as listed in the foregoing paragraph) for inspired and inspiring teaching. (Since requirements 2 and 4 are more or less intangible, we leave each reader to measure shortcomings in those respects in his own community.)

For a bright student to channel natural curiosity into a true search for knowledge, he must be offered, in addition to inspired and inspiring teachers, a range of subjects broad enough to challenge his imagination and deep enough to feed his growing hunger. Let Alabama again serve as an example. Schools range from those that offer no more than one of the following per year — algebra, geometry, chemistry, physics, foreign languages — to those that include all these plus trigonometry each year. Thus again statistics indicate something of the inequality existent.

A thirst for knowledge demands sources of knowledge other than teachers alone. Failure to supply the requisite library facilities is the third principal reason that 251 Alabama schools fail to meet accreditation standards of the Southern Association of Colleges and Secondary Schools.

The crowning statistical evidence of the inequality of Alabama schools is that 101 of them do not satisfactorily meet the necessarily modest require-

ments for accreditation with the Alabama State Department of Education. Of the 101, five are unaccredited and 96 are on probation. From whatever perspective one chooses to view the situation, there emerges the inescapable conclusion that the only equality of opportunity existent in Alabama schools is the more or less equal opportunity to secure a high school diploma. There is ample evidence that the same conditions, in varying degrees, exist in the other 47 states.

These conditions not only offer the most logical explanation for the large number of highly intelligent young people who either fail to finish high school or to enter college, they also explain why many students fail in college and why many others pass but never fulfill their true intellectual potential.

For Rebel Yells

We do not intend to suggest that equalization of educational opportunity will automatically destroy our rampant complacency or that it will immediately revitalize American idealism. We are suggesting that provision of the proper educational stimuli and atmosphere for all of our brightest young people may eventually bring the renaissance of American idealism, that a failure to do so may write its epitaph. There is an urgent need for the rebel yells of youthful intellectual warriors, and present circumstances demand the greatest possible number of participants in the chorus.

Other Side of the Sack Controversy Aired

The *Alumnews* has had its say about the sack. There apparently is a masculine pro to our con. Here's what API Student Dave Powell, Auburn, had to say in a recent *Plainsman* poll:

"I like sack dresses. For the first time since the twenties, women are wearing clothes that give a man something to wonder about. The air of mystery that sack dresses give a girl intrigues me. Perhaps now, one can get to know what a young lady's personality is like—before all doubt is removed as to whether or not she is a temptress."

THE AUBURN ALUMNEWS

Tucker Wants to Live Past a Century Mark

BY EARL L. TUCKER, '26

Every now and then you'll see in the papers a picture of some man or woman who has reached a 100th birthday. Such pictures usually cause quite a bit of talk and it's right interesting to listen to the varied comments.

You'll invariably hear somebody say, "I sure don't want to live to be a 100. Unless, of course, I can still be active and not a burden on somebody." As for me, I want to live to be a 100 even if I'm not active and have to have somebody put my teeth in for me at mealtime and push me around the house in a wheelchair.

A man who has reached a hundred has seen a lot of changes. He's witnessed the passing of the buggy and the half-moon decorated building and the advent of the chromium-plated automobile and the pink bath-room fixtures. He has gone through the kerosene era, into the electric age and now stands on the threshold of the atomic era. If he has accomplished anything he has made ten thousand friends and twenty thousand enemies. However, he has certainly outlived a lot of enemies, which is a powerfully good way to get rid of 'em. He has been through panics, depressions and recessions, good times and boom times. He has worked for as little as 50c a day and as much as \$20, and the four-bits bought as many groceries as the twenty bucks.

How To Die Young

If a person doesn't want to live to be a hundred, though, there sure are plenty of ways to head it off. He can take a couple of drinks and 'get out on the highway on a holiday week-end and keep not only himself but a lot of other people from becoming centenarians. Or, if you want to, you can work yourself to death while you're young and let your rich widow have a try at reaching a hundred.

Medical authorities say now that the time will come when the average life of man will be about a hundred years and maybe longer. Nearly every year now they're finding ways to effectively combat many of the main killers and pretty soon all they'll have left to work on will be common colds, hay fever and ordinary aches and pains.

Proceeding on the theory that I'm going to live to be a 100, I've been figuring what I'm going to tell the newspaper boys when they come around to get an interview. All of the others say they always took a little "toddy" every day, got plenty of exercise and fresh air and went to bed early and got up early. I'm going to attribute my longevity to laying off of English peas and spinach, resting throughout the day and staying in bed until a respectable hour in the morning. I figure a lot of people catch colds getting up early when there's frost on the ground, and too, a fellow should kind of let the early morning traffic get out of the way before starting to work.

Auburn Faculty Elects

(Continued from Page 1)

chairman; Dr. Vernon Lapp, professor of education, vice-president and vice-chairman; and Mrs. Virginia Ritchie, associate professor of home economics, secretary.

According to its constitution, "The purpose of the General Faculty is to serve the College by participating in the consideration and establishment of the academic policies and procedures." It normally acts "through its Faculty Council by making studies for and recommendations and suggestions to the President or the Council of Deans in matters pertaining to the educational interests of the institution and the welfare and effectiveness of its members as teachers; by initiating studies and proposals relative to these matters; by instructing its Faculty Council and, if deems such action necessary, by approving or rejecting the recommendations or proposals of the Faculty Council . . ."

ALABAMA VETERINARIANS ENDORSE API EMERGENCY FUND DRIVE—

THE ALABAMA VETERINARY MEDICAL ASSOCIATION became the first organized group of professional workers to endorse the API Emergency Fund Drive when its members adopted a resolution of endorsement at their annual meeting in Tuscaloosa on March 18. Veterinarians immediately began personal contributions to the Fund, well in advance of the personal solicitation period. Contributions from DVM's continue, with the latest coming from Dr. James R. Sanders, '57, Santurce, Puerto Rico, who learned of the effort from the Ala. VMA newsletter.

Officers of Ala. VMA for 1958 shown above are: Left to right, seated—Dr. M. K. Heath, '19, secretary-treasurer, Small Animal Clinic, API, Auburn; Dr. T. M. Miller, '50, president, Dothan; Dr. J. E. Green, '33, immediate past-president and member of Executive Board, Auburn. Standing—Dr. R. O. Moore, Jr., '38, Executive Committee, Tuscaloosa; Dr. W. P. Monroe, Executive Committee, '50, Anniston; and Dr. J. R. Dunlap, '48, vice-president, Guntersville. Not shown is president-elect Dr. W. R. Cryar, '51, Birmingham.

On the question of academic freedom—

Auburn Draws Censure Of AAUP

On April 18, the American Association of University Professors voted to censure Alabama Polytechnic Institute for an action that it considered an infringement upon academic freedom.

Censure resulted from developments stemming from Auburn's failure to renew the contract of Bud R. Hutchinson, former API assistant professor of economics. Hutchinson was on a one-year or "term appointment." His contract was permitted to expire on June 15, 1957, principally because of a letter which he wrote to and which was published in *The Plainsman*. The letter concerned racial integration in New York City and was written in response to a *Plainsman* editorial on that subject.

Subsequently, a faculty committee and a special committee of the Board of Trustees conferred on the Board's policy concerning academic freedom. (These committees did not deal with the Hutchinson case specifically.) The two committees jointly prepared a new "Statement of Policy of the Board of Trustees on Academic Freedom, Tenure, and Responsibility." The statement and a new contract "Notice and Acceptance of Appointment" were adopted by the Board on August 23, 1957.

In the new "Statement," the Board (a) summarized its legal obligations for the management of API; (b) stated that performance of those obligations "requires that it (the Board) shall take such action as it deems necessary to protect the institution and its employees from storms of public controversy"; (c) endorsed the scholarly goals of the faculty, "which include dedication to the advancement of knowledge through the search for, and the freedom to teach, the truth"; and (d) subscribed "in general to the 1940 Statement of Principles of the American Association of University Professors as it applies to the academic freedom, tenure and responsibility of faculty members."

In October an AAUP committee began its investigation of the Hutchinson case and academic freedom at Auburn. The committee made its report at the April national meeting of AAUP in Denver. At that meeting was a group of official delegates from the API Chapter of AAUP. API delegates — Professors William S. Smith, president of the Auburn AAUP Chapter, David H. Malone, and W. R. Myles, Jr., acting upon official instructions from the Auburn Chapter, moved to delay censure "pending further negotiations between the faculty and the administration" at Auburn. After censure was voted, the Auburn delegates discussed with the national group means whereby censure can be removed.

Alumnews Interpretation

Space does not permit the *Alumnews* to detail the history of the case outlined above. After a careful re-examination of the case, we hazard a few interpretations.

Differences of opinion between the Board and AAUP concerning the Hutchinson case quite evidently exist. The Board apparently feels that failure to renew Hutchinson's contract did not infringe upon academic freedom for two reasons: (1) A term appointment is subject to renewal or expiration without statement of cause; and (2) they do not feel that Hutchinson fulfilled the faculty responsibility clause of the "1940 Statement" which impresses upon a faculty member his responsibility to speak accurately and judiciously upon a controversial issue and to disassociate himself from the institution when so speaking. The Board does not consider that Hutchinson acted judiciously, or that he disassociated himself from the institution since he signed the

letter with his professorial rank as well as his name.

On the other hand, AAUP evidently believes that failure to renew Hutchinson's contract specifically because of the letter constitutes an abrogation of his academic freedom. Because of the nature of the publication, *The Plainsman*, and the position, the letters to the editor column, in which the Hutchinson letter appeared, AAUP maintains that no one could consider Hutchinson an official spokesman for the institution.

AAUP's interpretation of the Hutchinson case apparently causes it to question the "New Statement" adopted by the Board on August 23, 1957. Its particular concern is with the interpretation of the phrase "in general" contained in the Board statement that it subscribes to the "1940 Statement of Principles."

The *Alumnews* must admit that it cannot determine from the record whether the AAUP and the Board disagree on a basic principle or merely on the technicalities of interpretation. We are convinced that the Board of Trustees acted sincerely for what they conscientiously believe to be the best interest of Auburn and that the AAUP acted just as sincerely and conscientiously in what it believed to be the best interest of American professors and their effectiveness as teachers.

Since both the Board and the AAUP are composed of reasonable and intelligent men there is hope for removal of censure. The forthcoming AAUP General Secretary William P. Fiddler, Birmingham native and former University of Alabama professor, has expressed a willingness to come to Auburn at any time to assist in efforts to remove the censure.

The *Alumnews* sincerely hopes that conferences between Auburn representatives and the AAUP will result in the removal of censure, for the AAUP censure may cause additional difficulties in recruiting new members for Auburn's already depleted staff.

auburn sports

by Bill Beckwith

Tiger happenings' in May . . . Three members of the 1957 National

Beckwith

Championship football team have been invited to play in the College All-Star game in Chicago in early August. They are Jimmy Phillips, Billy Atkins, and Ben Preston. Phillips has accepted but the other two are undecided about whether to play or join their Pro clubs to take advantage of the all-important pre-season drills.

Last year C. W. (Bill) Streit and Bradley Streit, two prominent alumni, donated two four-year track scholarships to Auburn. The "Streit Scholarships" were given to API with the specification that Track Coach Wilbur Hutsell select the two athletes. Recipients of the awards were discus thrower Richard Crane of Cairo, Ga. (best frosh in the SEC with 150'5½") and quarter-miler Benny Overstreet of Douglas, Ga. (best frosh in the SEC with :49.5).

TICKET ORDER BLANKS MAILED

Football ticket order blanks have been mailed and enclosed is full season ticket information. Let me personally encourage you to consider this new plan because of its importance to you for better seats now and in the future. Only 5,000 season tickets are offered this year for five games, (Tennessee, Chattanooga, Maryland, Mississippi State, and Wake Forest). Charter members will always have the best seats if they re-order annually. General public will have opportunities to purchase these tickets after alumni orders are filled and then they will have better priorities to purchase season tickets than yourself for the coming years if you fail to order this year.

Former two-miler Hawthorne Wesley of Atlanta is now Pvt. Wesley of Fort Chaffee, Ark. . . . Jim Pyburn is playing first base for Louisville of the American Association (AAA) and leading the team in batting during early May with a .359 average . . . Spud Wright, football manager in the late 40's, was elected County Solicitor for Lee County in the recent election.

Tiger football signee Jimmy Bonner of East Point, Ga., was the Georgia State high and low hurdle champion. This is remarkable for a

Atkins

SEASON TICKET PLAN CATCHES ON

The new season ticket football plan is catching on fast.

First order from a Dues-Paying Alumni was received from Mr. C. F. Wingard, 608 Lynwood Dr., Montgomery, Ala., who ordered two season tickets.

First order from the file of General Public was made by Mr. Leslie L. Baumberger, Box 447, West Point, Ga. He ordered three season tickets.

Season tickets are \$20.00 each and include 1958 games Tennessee, Maryland, Chattanooga, Mississippi State, and Wake Forest. All are in Auburn except the Tennessee game.

fullback standing 6-2 and weighing 190 pounds . . . Two-sport lettermen (freshmen and varsity) during this year will be football-track combinations Jimmy Laster, Jackie Burkett, Tommy Lorino, Don Fuell, and Lloyd Nix; and basketball-baseball combinations Shot Johnston, Rex Frederick, and Porter Gilbert, and football-golf Bryant Harvard.

1957-58 TIGER RECORDS IMPRESSIVE

Umbach

The sailing regatta championship that Auburn students won at New Orleans recently counts as an athletic outing so that now the Tiger championships include football, wrestling, and sailing for 1957-58 plus a second place finish in basketball. (Incidentally, this year's win gave Coach 'Swede' Umbach's matmen the 12th consecutive SCIWA Wrestling Championship for Auburn).

Illness forced starting tackle Dan Presley to drop out of Auburn this quarter and I'm sure he would enjoy hearing from any of you. He is bed-ridden at his home in Opp. Doctors say he has rheumatic fever . . . Basketball signees for next year are Johnny Helmlinger (Bradenton, Fla.), Billy Littrell (Moulton), Leon Posey (Moulton), Bill Ross (Hartford), and John Gibrant (New Orleans, La.).

A coaching shakeup at Murphy High in Mobile involves several Auburn grads. Former Guard Chuck Maxime has been added to the staff of head coach Jack Locklear, former center, and former quarterback Bill Burbank and basketball forward George Hill are leaving the Murphy staff to coach at a new high school in Pensacola, Fla.

Sacks, Humor, and Poor Grammar

This month's selection from original compositions by students at Southern colleges differs from previously published compositions in two important respects: it was written by a sophomore rather than a freshman; and despite the grammatical confusion, it reveals something resembling a genuine sense of humor. But one cannot really determine how much credit the writer deserves for conscious humor.

Fashion Goes In Cycles

Fashion changes ever year in women dresses. In Nineteen and forty The women dresses were hang high on the woman profile. The dress came up to her knees and reveal everything from her knees to the the toes. In a few years after Nineteen and forty Five, the design for dress were longer and tigher and show no knees, but reaveled a lot more of what Mother nature had intended for the male to see, Although man became custom to seeing these new changes he never had a dull year because each year the women would change some part of the dress to catch his eye, this went on till The New fashions each year make the woman look like she was pored in the dress. The men realy enjoyed these, because ever litle lady and girl looked so good, that it caused the male to starte wanting a devorce and something had to be done to stop this, In Ninteen fifty seven the design came out that did it.

The Modern Fashion Cycle for sack dress are on the move in Nineteen fifty-eight. The sack dress looks like the old

dresses in the twenties and the only thing they need in these fashion change is high bucked shoes to be dressed like the women in the Nineteen twenties The fashion minded designs are getting more conservative than they have in years. All a woman has to do now to be in style is go to the market and buy a hundred pounds of potatoes for the family and feed them potatoes three times a day so she can get the sack emptied in hurry to get the sack. When the sack is emptied, she can take a knife and cut the bottom out and do litle work on the side to make it fit and she is in style. That is like the women did in the depression when they did not have any money and they were in style. We are in a resssion now and I think the reason for these designs of the sack dresses this year is because The woman are litle smartter than we men give them credit for, they just don't want to see a nother depression.

The Fashion Cycles has got to change this coming year because the women have got to start waring something the men like in place of what this sack dress has to offer us men. The woman must remember they out number us men. by a million and half. More Woman want to get married than the ones that do not. That the reason Woman must ware some new Kind of design for the coming year. The dress in future must fit tight and come below the knees and cover up the bow legs of our Woman, if they ever expect to get head in this woman world.

As CSU's public relations expert—

Thomas Is Modest And Effective

Lewis Thomas, '38, is a rather modest fellow with a big public relations job. When asked to send the *Alumnews* a bit of information about himself, he noted in reply that he had always fancied himself one of those persons "who just worked and worked and slew no dragons."

The *Alumnews* does not have the latest rating on dragon slayers, but it has some reports about the top notch job that Lewis Thomas is doing for Colorado State University as director of the CSU Information Services. The plural form of Services is not accidental. The job at CSU includes supervision of Extension Information, Experiment Station Information, Resident Instruction, Public Relations, the University Printing Service, the Pub-

lications Office, the University Post Office, the Development Fund, and the Photo Lab.

After graduating from Auburn, he earned an M.A. at the University of Denver and is currently working on his doctorate.

From 1941 through 1944, he was an engineer with Douglas Aircraft. He was a newspaperman and radio-television promotion manager from 1944-1954. From 1954-1957, he served as administrator of University Development at CSU.

Among his numerous civic services in Colorado have been serving as publicity director for the Denver Red Cross in 1949; directing publicity committees for the Greater Denver Opera Association; working in the Denver Centennial Auditorium Campaign; and serving as campaign director of the Larimer County Hospital Building Fund.

He was listed in the 1957 *Who's Who In Colorado* and is a member of the Denver Press Association, the American Alumni Council, and the American Association of Agricultural College Editors. At Auburn, he was a member of Kappa Alpha social fraternity, Sigma Delta Chi and Phi Psi honorary fraternities, The Plainsman and Glom-erata staffs, and the Auburn Debate Team.

Auburn Draws A Stiff Penalty From NCAA

On April 21 the National Collegiate Athletic Association Council placed Auburn on probation until Sept. 1, 1961, for alleged illicit financial aid to an athlete.

According to its normal custom, the NCAA did not make public the evidence on which it based its charges or give the name of the player who supposedly received the aid. However, Auburn maintained her innocence in the case with Athletic Director Jeff Beard making both the NCAA charges and Auburn's refutation public in a several hour press conference at Auburn on April 22.

Even before the press conference, the public had been informed by the press that NCAA charges were made in connection with the recruiting of Don Fuell, Guntersville high school star and Auburn freshman quarterback.

The NCAA decision must now be reviewed by the Executive Committee of the Southeastern Conference, which had earlier cleared Auburn in its investigation of the case. Auburn will be permitted to present her side of the case before the SEC Committee on May 22.

THE AUBURN ALUMNEWS

Alumni Exchange Corner

Teachers Subsidize

The people who chiefly finance college discounts are the teachers. The college teachers of the U. S., says the President's Committee, "are subsidizing the education of students, and in some cases the luxuries of their families, by an amount which is more than double the grand total of alumni gifts, corporate gifts, and endowment income of all colleges and universities combined. That is tantamount to the largest scholarship program in world history." The teachers make this contribution, not always cheerfully, by working for shamefully low pay.
—from "Colleges Are Too Cheap," CLEMSON ALUMNI NEWS, April 1958.

* * *

Core of the Problem

Whenever conversation turns to the United States' lag in science, it soon gets around to the fact that there aren't enough qualified science teachers at all levels — high school, undergraduate and graduate.

Basically, it is a question of not enough incentive for the especially outstanding student to become a teacher.

In this connection, we might take a lesson from the Russians. There, professors have become the privileged upper class of a supposedly classless society.

In the U.S. the average faculty salary is little more than the average income of industrial workers.

In Russia, the head of a department of a university can command a salary of eight times the income of the average Russian worker.

Russia also offers much bigger premiums than the U.S. to those who attain distinction in teaching. Teachers at the university level earn significantly more than teachers in high school. The spread between the income of a full professor and the lowest academic position is greater than fifteen to one. In addition, full professors can earn a substantial bonus if they are elected to membership in the Russian Academy of Sciences.

Our colleges and universities, as well as our teachers, find themselves in a serious predicament. Faced with a shortage of both funds and teachers, they cannot reward distinguished performances. Limited resources for salary increases have gone predominantly to the lower ranks, so that an adequate number of teachers could be retained. Meanwhile, potentially fine teachers are being siphoned off into better paying positions.

An old story, not so funny to teachers, is the one about the college professor who discovered five of his graduating seniors were being offered starting salaries higher than his own. Naturally, such experiences dampen the enthusiasm for teaching of even the most dedicated to academic life.

One American businessman proposes this be the standard for faculty salaries: "When a teachers' income gets up to a point where you will suggest to your boy that he ought to give some thought to teaching as a profession, then we may be approaching the right figure."

(Reprinted from "An Invitation to Take a Look at Education's Problems," The LSU Alumni News, March-April, 1958.)

THERE'S NO PLATE LIKE HOME—

TIGER SHOT JOHNSTON gives forth a big grin as he trots across with the winning run in the final game with Florida which clinched the Eastern Division SEC title for Auburn. Johnston's big single had just a few moments before brought in Rex Frederick with the tying run in the bottom of the first. Catcher Pat Duke then provided an easy trip for Shot by blasting one over the left field fence in Plainsman Park. Auburn later picked up two more insurance runs, but Pitcher Allan Koch made sure they weren't needed by allowing Florida no more.

Tigers Now Baseball Champs

Auburn won the Southeastern Conference baseball championship by defeating Conference Western Division Champion Alabama in two successive games in Birmingham on April 14 and 15. Auburn won the first game 4 to 3 behind the pitching of soph Quineth Roberts. It took the second game 5 to 4 behind another soph mound ace, Alan Koch.

The Tigers of Coach Joe Connally won the Eastern Division Championship by beating Florida in the last

two games of the regular season to finish with a conference record of 12 wins and three losses.

Two sophomore pitchers, Quineth (Red) Roberts (6-1) of Chattanooga, Tenn., and Alan Koch (6-2) of Demopolis were the backbone of the 1958 team.

Roberts and Koch were the winners of all 12 conference victories and Koch was credited with one of the three conference losses. Roberts was unbeaten in conference play. Koch's losses were to F.S.U. and Georgia, while Roberts lost his only game to F.S.U.

Catcher Pat Duke led the team in batting with a .349 average and waited for the professional offers following the championship series.

Center Fielder L. F. Lanier was the leader in hits, 36; runs scored, 26; doubles, seven, and triples, four.

Second Baseman Jack Crouch led the team in runs-batted-in with 30.

Duke, Lanier, and Crouch are seniors. For the year, Auburn won 17 games while losing eight.

Coach Connally achieved one of the true rarities of baseball in 1958. He was asked to handle the team when Coach Dick McGowen took over new football duties for one year. Next year, Connally returns to the freshman baseball team and Erskine Russell, hired during spring as freshman football coach and varsity baseball coach, takes over.

Dean Pumphrey's Book Is Translated Into Hindi

Fred H. Pumphrey, dean of the API School of Engineering, Alabama Polytechnic Institute, has received from his publisher four copies of the Hindi (Hindu) translation of his book, "Electrical Engineering." The text is the first electrical engineering book to appear in the Hindi language.

From 1955 through 1956 the dean was a consultant at the Bihar Institute of Technology, Sindri, India.

He related that his Hindi associates wanted the book to aid Indian instruction in electrical engineering. When they began translating, however, they had to coin some Hindi words to give meaning to the English original.

CLAUDE I. CARTER . . . Manager

Claude Carter Becomes Mill General Manager

Claude I. Carter, '41, became general manager of the Alabama Flour Mills of Decatur, Ala., in his seventeenth year with the company. Carter was named to his new post by J. A. Mactier, president, Nebraska Consolidated Mills, Inc., of Omaha, Neb., parent company of Alabama Flour Mills.

Until his new appointment, Carter had served as assistant manager of the division and manager of the Formula Feed Department. He was appointed a vice president of Nebraska Consolidated in 1956.

He has been active in many of Decatur's civic affairs, being past president of Decatur Lions Club, and director of the Chamber of Commerce. In addition, he is a member of the Agricultural Advisory Committee of the American Feed Manufacturers Association.

Football Reminiscences

BY C. WINSTON COOPER, '08

At the conclusion of football seasons, it seems that thoughts turn to incidents that stand out in recollections of former seasons. Heisman, while coach at Tech, was asked to tell who, in his opinion, was the greatest hero in football. He replied, George Nathan Mitcham of Auburn, who got out of the bed, having the mumps, and went into the game in the second half (when Georgia had Auburn badly beaten) and almost single-handedly won the game. It was the last game of the season and Mitcham was captain. Although he had never played in the backfield, he insisted on going in the game and playing full-back. When given the ball, he had such determination that he was practically un-stoppable.

At the end of the 1942 season, "Old Timer" wrote of the "Giant Killer," Coach Jack Meagher of Auburn, and the game with Georgia at Columbus, saying, "His invincible faith gave Auburn the finest victory of all the years." All of his staff having been called into the service, Meagher got Jimmy Fenton to help in the backfield and a man from Texas to assist in the line. Auburn went into the game a loser to Florida, which had lost to Georgia by a score of 75-0, and also loser to Tech and Mississippi State. The game ended with the score, Auburn 27, Georgia 13. Georgia went to the Rose Bowl and beat U.C.L.A.

Other games to remember are: the Tulane game of 1932 when Auburn won over a team which had "ruled the roost" for several years and received universal acclaim and the selection of Jimmy Hitchcock as an All America halfback; also the game with Tech in 1919—Tech had won the title "Golden Tornado" by bowling over all her opponents. Tech came onto the field, all big and husky in flashy uniforms; Auburn without much of a record, came onto the field, some long and skinny, some short and fat, some small. A stranger, who sat near-by, said "I thought I was going to see a football game." After right tackle Warren blocked a punt and left guard Sloan ran, like a back, for a touchdown, Auburn went on and won the game; he did see a "FOOTBALL GAME."

Auburn Alumnnalities

1902

Dr. Henry B. Park is kind enough to keep the Alumni Association posted on Atlanta newspaper comments on Auburn athletics. In case youngsters in the Auburn alumni family wonder why this venerable Atlanta dentist maintains such an avid interest in sports, we should remind them that Henry B. (Preacher) Park played every game all the way on the Tiger teams of '98, '99, '00, and '01 and held the ball for every point after touchdown during those four years.

1905

Luther Davis, now over 76 years, personally opens and closes his Tuscaloosa drug store—Davis Drug Co.—each day in the week except Sunday.

1908

P. Y. Whitman helped cut the cake at the Birmingham Civitan celebration of the 38th birthday of Civitan International, which began with an organization of business and professional men in Birmingham on March 17, 1917. Mr. Whitman was a charter member of this Civitan Club which grew into the present Civitan International.

Herman H. Schomburg has moved from Albany to Leesburg, Ga.

Ralph U. Blasingame is at Pennsylvania State College.

1909

Col. Millard (Skipper) Wescott was recently guest speaker at the Opelika Exchange Club. Col. Wescott, now living in retirement at Lake Jordan, served as personal aide to General Robert Lee Bullard during World War I. For 15 years prior to his retirement, he served as head of the Department of Veterans Affairs Office in Montgomery.

1910

John H. Phillips is engaged in the nursery business in El Cajon, Calif. He has been a nurseryman since 1942, beginning in Los Angeles and then later moving to San Diego and from there to its suburb El Cajon. In 1913 and 1914, he worked for the Auburn Alumni Association with the late Thomas Bragg soliciting contributions for building the Alumni Gymnasium and serving as assistant editor of the late Auburn *Alumnus*. Prior to that time he was secretary to the late Auburn President Charles Thach. In the years between his Auburn service and establishment of his California business, he was a farm agent in Arkansas and in Georgia (with the Central of Georgia Railroad), farmed in Arkansas, and then was in the insurance business in Memphis for 20 years.

Talmadge Coates Hughes recently received the 1958 Gold Medal Award of the Michigan Society of Architects for his devotion and services to the architectural profession in that state.

1911

M. A. Askew, who has recently retired and lives in Jackson, has been made a life member of the American Society of Chemical Engineers.

Col. John E. (Boozie) Pitts is now in Ward 2, Walter Reed Hospital, Washington, D.C. Letters to the former Auburn football star, coach, and professor should be directed to the foregoing address.

1919

William C. Edwards has moved from Anderson, Ind., to Dunedin, Fla.

1920

William A. Cammack is living in Grove Hill, having moved there from Camden after his recent retirement.

1917

Dan W. Hollis and Mrs. Hollis were honored recently on their 40th anniversary when they were entertained with an open house at their home on Headland Rt. 1. Hosts were their children, Dan Hollis, Jr., '41, and Mrs. Hollis of Auburn and Mr. and Mrs. Brooks Higgins of Montgomery.

Dan Hollis, Sr.

Henry F. DeBardeleben has moved to Birmingham from Sipsey.

1921

E. C. Easter, executive vice-president of Alabama Power Co., was recently elected a member of the Power Co. Board.

Charles C. Anderson is living in Los Angeles.

1922

R. L. (Dusty) Haggard, lieutenant governor of the Alabama-West Florida district of Civitan International, was guest speaker at the Opelika Civitan Club recently.

Julian C. Bailey, engineer for the Cincinnati Gas and Electric Co. and chairman of its computer application committee, is responsible for the idea which led to the Cincinnati Engineering Society program for vocational guidance to high school students. The program culminates in Cincinnati's Science Award Exhibit each year. The entire program is designed to encourage brilliant, capable, and talented students in engineering and sciences to pursue careers in these fields says Bailey.

1923

G. W. Hughes, pharmacist-farmer who owns the Humphrey Hughes Drug Store in Madison (Ala.), is the proud father of 11 sons.

Mrs. R. D. (Wilella Plant) Ingalls, Auburn, has been elected vice-president of the Alabama DAR for the east central section.

1924

Mrs. Alice Cary Pick has been elected president of the Auburn Woman's Club.

R. B. Dowdy has been appointed an Alabama representative of J. J. Finigan Co., Inc., of Atlanta.

1925

Alfred M. Lee is in the trucking business in Plant City, Fla.

Frank Powell, API purchasing agent, is heading the 1958 Cancer Crusade in Auburn.

Mrs. W. D. (Helen Bowman) Salmon, Auburn, is treasurer for the Lee County Alpha Gamma Delta alumnae.

1926

Simpson R. Foy is living in Avondale Estates, Ga.

Aubrey C. Gill has moved from Harpersville to Bessemer.

1927

Capt. John C. Mathisson is San Francisco District Officer for the Coast and Geodetic Survey.

1928

Col. Edward C. Coffin, Ryukyus Command-IX headquarters, Okinawa, has been awarded a U. S. Army Infantry Center Certificate of Achievement for outstanding performance as signal officer of the Infantry Center at Fort Benning, Ga. He served at Fort Benning from July, 1954 until April, 1958.

1930

M. S. Moore, former state coordinator of defense activities for Florida, is now district manager for Southern Bell in Daytona Beach, Fla.

John T. Wright is with the International Paper Co. in Georgetown, S. C.

Lucius M. Dyal has established the Dyal Construction Co. in Valdosta, Ga. He recently spent several years in Guayaquil, Ecuador, with the Smith Engineering Construction Co.

John J. Mosley has moved from Oak Ridge, Tenn., to Birmingham.

1931

Edward C. Marty, API professor of history and building technology, has been appointed preservation officer for Alabama to work with the Committee for Preservation of Historic Buildings.

J. W. Watson, Auburn, received the 25-year service pin of the State Farm Insurance Companies at the Alabama convention of the insurance company in Birmingham on April 18-19.

Col. Hampton L. Green is with the Department of Training Publications, The Engineers School, Ft. Belvoir, Va.

Sam P. Robinson has moved from Houston to Sea Brook, Tex.

Mrs. Richard (Anne Byrd Jones) Cronier lives in Ft. Meade, Fla., having moved there from Bartow.

1932

Hanchey E. Logue, Alabama 4-H Club leader for the API Extension Service, has been awarded a fellowship to study agricultural education by the Fund for Adult Education for leadership studies.

Marcel E. Crettet, Sr., has moved from Ocean Springs, Miss., to Randolph AFB, Texas.

1934

Novie J. Benton has moved from Buffalo to Bartow, Fla.

Clark A. Singleterry, Jr., is with the U.S. Rubber Company in Passaic, N. J.

1935

Austin Martin represented the Alabama State Docks Board at the National Industrial Development Exposition at the Coliseum in New York recently.

1936

State Rep. Charles Adams of Alexander City has been elected chairman of the Alabama Legislative Council.

1937

John S. Carothers is an engineer for the Alabama Gas Corporation in Birmingham.

Foster B. Broadway is teaching in Leesburg High School, Leesburg, Fla.

William H. Reynolds is an FHA Inspector in Birmingham.

New Addresses: Dr. Richard A. Ruck, Hawthorne, N. J.; James O. Turnipseed, Aliceville; William R. Logan, Atlanta, Ga.

1938

Mrs. Joseph B. (Mollie Brasfield) Sarver has been elected recording secretary of the Auburn Woman's Club.

W. H. Gilmore, Montgomery, was presented the Fuller Award during the 1958 convention of the American Water Works Association in Dallas, Tex., recently. The award is made each year to the man who has contributed the most to the water works profession.

T. M. Nelson, who farms near Livingston, is one of those fellows whose dealings with modern science are more concerned with conditions on terra firma than with outer space and the moon goddess. He is now engaged in placing pellets of stilbestrol in the ears of steers on his 1250 acre farm. Experiments have shown that the chemical increases feed efficiency and rate of gain about 10 per cent (The moral of this story for those of us who have to

(Continued on Page 7)

ALUMNALITIES

(Continued from page 6)

watch our waistslines is that we must beware of people who want to place bugs in our ears).

Edwin H. Alley, Jr., former Southern Bell plant manager of the north group in Jacksonville, Fla., is now district plant manager for Southern Bell in Pensacola, Fla.

Commander W. Crane Cantrell is with the Veterans Hospital in Memphis.

Born: a daughter, Carol Lynn, to Lt. Col. and Mrs. Walter H. Heath, Jr., in Columbus, Ohio, on April 6.

Mrs. M. O. (Sarah Coleman) Wilborn lives in Montgomery.

J. Leonard Wood is plant manager for Mathieson Chemical Corp. in Baltimore, Md.

1939

Mrs. Juanita Johnston McVay is dietitian for Judson College in Marion.

Mrs. R. C. (Mary Rosser) Burkhardt, home economics teacher at Butler High School in Huntsville, this year chaperoned her second student in five years to win the National Cherry Pie Baking Contest in Chicago.

Mrs. Carrie Jordan is a clerk for M. A. Norden Co. in Mobile.

Margaret E. Lide is a field representative for the Alabama State Department of Pensions and Security in Montgomery.

Virginia Riviere teaches in Montgomery.

Born: a daughter, Jo Ann, to Mr. and Mrs. Marvin Roger Cox of Deatsville on April 19.

J. Carlisle Farrow is a textile engineer with Robert and Co., Assoc., a firm of Atlanta architects.

Maj. John B. Thomas, Jr., is an English instructor at Columbia Military Academy, Columbia, Tenn. He and his wife, Louise, with their two daughters, Bethany, 17, and Jane, 13, are House Mother and Father to 44 boys in their barracks. John travels South Georgia and Florida in the early summer months, interviewing parents of boys who plan to attend CMA.

New Addresses: Col. William P. Thornton, Charleston AFB, S. C.; Cloy V. Lyle, Little Rock, Ark.

1940

Harold Burdick, Birmingham, has been granted a license to practice law by the Supreme Court of Alabama.

Bernard M. Crow is an engineer with the Farm Home Administration in Montgomery.

J. L. Solley has retired and lives on Route 2, Columbus, Miss.

J. Rivers (Rip) Rush is a sales representative for Mobile Paint Manufacturing Co. in Birmingham.

New Addresses: Alvin H. Lurie, Atlanta.

1941

Urban H. Johnson is an electrical engineer in Syracuse, New York.

Frank Renfro, Opelika florist, was elected director of the Alabama State Florists Association at the organization's recent convention in Mobile.

1942

John M. Miller is with the Alabama State Health Department in Montgomery.

Dr. Benajah Bibb Cobb practices medicine in Monroe, La.

Dr. Thomas B. Sawyer is a veterinarian with the U.S.D.A. in Louisville, Ky.

New Addresses: Mrs. Mack (Nelle Johnson) Granberry, Parker, Fla.; Dr. Grover C. Thornton, Jr., Clayton.

1943

James A. Dowdy has been appointed an Alabama representative of the J. J. Finnigan Co. of Atlanta.

Mrs. Carl B. (Madrid Davis) Benson, Auburn, is the new president of Lee County Alpha Gamma Delta alumnae.

Glenn Draper, Langdale postmaster, recently participated in the dedication

In The API Agricultural Extension Service—

Retirements Bring Ag Hill Changes

Retirement of two district agents of the API Agricultural Extension Service and a new Washington position for the state home agent indicate a considerable

Bumper Freshman Crop Expected Next Fall

Next fall's crop of freshmen at Auburn gives every indication of being a bumper one.

Applications from approximately 1,900 prospective freshmen for the Fall Quarter have already been received by Registrar Charles Edwards, '20.

Except for graduate students and admissions to specialized curricula, the quota of foreign students for the Fall Quarter has been filled for some time.

Applications from some 300 girls have been turned down since January. Girls' housing quota for the Fall Quarter was reached in January. In 1957 the same quota was not filled until March.

WHEN EDUCATION IS EVIL

While a good education can be a great good, a bad education can be a very great evil; it can be infinitely worse than no education at all. With a good education a child learns to think clearly and to draw sound conclusions from evidence; with a bad education he will learn to accept plausible falsehoods, to confuse propaganda with truth. With a good education he will come to cherish what is most worthwhile; with a bad education he will learn to value the trivial. With a good education he will learn to make ethical judgements even when they are unpopular; with a bad education he will learn to follow the crowd wherever it may lead him and to be convinced that he is right in so doing.—Paul Woodring, *A Fourth of a Nation* (McGraw-Hill) (As quoted in *QUOTE*)

ceremonies for Langdale's new post office.

Eleanor Poe, dietitian for the Baptist Memorial Hospital in Gadsden, has been elected president of the Alabama Dietitians Association.

Eletha I. Howard is a chemist in Port Arthur, Tex.

Dr. Redding Sugg, associate professor of English at Georgia State College in Atlanta, has been elected secretary of the Department of Higher Education of the Georgia Education Association.

State Senator Richmond Flowers, Dothan, was the featured speaker at Alabama Gold Star Mothers convention in Sheffield recently.

Byron Oliver, soil conservationist in Oneonta, has received an award from the Oliver Corp., farm equipment manufacturer, for a picture-story concerning woodland management to be published in a company magazine.

Robert G. Merrill, his wife, Emily, and their son, Bobby, 7, are living in Birmingham, where 'Bo' is an industrial engineer with the T.C.I. Division of United States Steel Corp.

Lawrence C. Norton is teaching in Chapel Hill, N. C.

The Rev. and Mrs. Travis S. Berry (Bernice Hayles, '46) and two children are in Brazil where he is serving as a Baptist Missionary.

New Addresses: Russell V. Jensen, Selma; Richard H. Houston, Marion, Iowa; The Rev. James C. Goare, Fallston, N. C.

1944

Dr. J. Tom Roberts, Jr., is co-author of *Ion Exchange Technology*, a book published by Academic Press of New York City. Dr. Roberts is on the Oak Ridge National Laboratory staff. He

(Continued on page 8)

change in faces among the group of extension workers on Ag Hill. However, when one studies the list of new appointments, he finds that faces will be familiar still, for each new appointee is a graduate of API who has won his spurs in farm service work in Alabama.

New District Agents

Appointment of two district agents in the Extension Service of the Alabama Polytechnic Institute to fill vacancies caused by retirement was announced recently by Director P. O. Davis.

Hoyt Warren is appointed for District III, Southwest Alabama, and W. H. Taylor is appointed for District I, North Alabama. Warren succeeded James D. Samford, who retired April 30, and Taylor will succeed L. L. Self upon his retirement June 30.

Warren is a 1939 graduate of Auburn with an MS degree in extension supervision and administration from Cornell University in 1952. He has had 10 years' experience as assistant and county agent in Bullock and Henry Counties and three years on the state staff as a specialist.

Taylor is a 1940 graduate of Auburn in agriculture and is now a graduate student in supervision and administration at Cornell, expecting to receive his MS degree this June. He spent 11 years as assistant and county agent in Lee County before taking leave last year to take special training preparatory to extension administration and supervision.

Warren is a native of Tallapoosa County and Taylor of Clay. Warren entered military service in 1942 as a private and was discharged in 1945 as a captain. Taylor joined the Army in 1942 as a private and was discharged in 1946 as a captain.

L. L. Self Retires

LeRoy L. Self, '19, widely known state farm leader, will retire from the API Extension Service June 30.

Self has been with the Extension since 1924, first as county agent of St. Clair and Etowah counties and then as district agent for the past 21 years. Previously, from 1919 to 1924, he had been principal of the Blountsville Agricultural High School.

While county agent of Etowah, Self organized farmers of the Coats Bend community into the nation's first one-variety cotton association. The one-variety plan for improving the quality and yield of cotton spread over the state and now adds millions of dollars to the annual income from cotton.

As district agent of 16 North Alabama counties, Self and his county agents worked in close cooperation with TVA in improving the agriculture of the area. Development of better fertilizer practices and expansion of livestock farming were features of the programs directed by Self.

Self is a member of Alpha Gamma Rho social fraternity, Gamma Sigma

Delta honorary agricultural fraternity, American Legion, and Auburn Presbyterian Church.

Mrs. Alexander Leaves

Mrs. Lillie M. Alexander, API state home demonstration agent, has been appointed field agent on the Federal Extension Service staff in Washington.

She is directing home demonstration programs in 13 Southern states and Puerto Rico.

New State Agent

Mrs. Mary E. Coleman, '36, will succeed Mrs. Lillie Maude Alexander as state home demonstration agent.

For the last 11 years Mrs. Coleman has served as district home demonstration agent in North Alabama. Her previous extension work includes five years as home demonstration agent in St. Clair County and a brief period as a specialist. Born and reared in Chambers County, she finished high school and got her degree in home economics at the Alabama Polytechnic Institute in 1936, and the master of arts degree in cooperative extension at Teachers College of Columbia University in 1951.

MARY COLEMAN . . . state agent

L. L. SELF . . . to retire

W. H. TAYLOR . . . district agent

HOYT WARREN . . . district agent

1948

is married to Christine Dubose, '49; they have two children, Craig Ann, 6, and Tommy, 4.

Charles O. Sikes, Jr., is a salesman in Orlando, Fla.

Dr. Ben F. Ventress practices dentistry in Atlanta.

Ralph Killebrew is farming at Ft. Gaines, Ga.

Tom W. McKay is a chemist with Ethyl Corp. in Baton Rouge, La.

The Rev. W. K. (Billy) Stephenson is a Baptist Minister in Decatur.

Jack B. Thomas is now living in Birmingham with his wife Kathryn and their two children, David, 7, and Dawn, 2. He is employed by the Wire Rope Division of American Chain & Cable Co. He travels Alabama, Mississippi, and Tennessee for ACCO.

Mrs. T. C. (Annette Cheney) Carr, Jr., Opelika recently attended the Finance and Public Relations Institute of the Girl Scouts U.S.A. National training program in Meridian, Miss. Mrs. Carr is a member of the public relations committee for the Talleconock council.

New Addresses: Hubert L. Smith, Metairie, La.; Mrs. Mary Jo T. Nicol, Greenville, S. C.

1945

Anthony Dragoin, API assistant professor of physical education, has been elected vice-president of the Alabama Health, Physical Education and Recreation Association.

Lamar Ware, Jr., Auburn, was elected treasurer of the Retail Jewelers Association of Alabama during convention meetings in Birmingham on April 14.

Raymond Earl Tanner lives in Birmingham.

1946

William M. Fenn, Jr., is with the International Harvester Co. in Birmingham.

Vivian G. Johnston, Jr., is a tax lawyer with Hand, Arendall, & Bedsole in Mobile.

Dr. F. C. Smalley, DVM, of Toombsboro, Ga., is a U.S.D.A. supervisor.

New Addresses: Robert A. Dobbins, Jr., Elberton, Ga.; Edward H. Buckner, Montgomery; Rufus Barnett, Ozark.

1947

Walter W. Dean is now part owner of the Eufaula Concrete Co., Inc., a ready-mix concrete and construction firm. He is married to the former Annette Davis of Gordo and they have two sons, Walter, Jr., 6, and Lewis Shepard, 2. After graduating from Auburn, Mr. Dean received an LLB degree from the University of Alabama in 1951.

Charles K. Stafford is vice-president of Goodwin Engineers in Birmingham.

Thomas M. Botsford is Opelika chairman of the 1958 Cancer Crusade.

Samuel H. Booker is an agricultural engineer in the Rural Sales Department of the Alabama Power Co. in Birmingham.

Howard M. Lane, Chief of Fighter Operations under the Directorate of Flight Test at Edwards AFB, Calif., has been promoted to lieutenant colonel. Lt. Col. Lane and his wife, Eloise, have two sons, Howard, Jr., and John.

Gordon D. Oxford is a bookkeeper in Birmingham.

Jerry Lee Stapp, Jr., infant son of Mr. and Mrs. J. L. Stapp (Mary Lee) was christened in Alexandria, Va., by the Rev. William Byrd Lee, former rector of the Auburn Episcopal Church.

New Addresses: Sara F. Adams, Atlanta; Warren G. Johnston, Odessa, Tex.; Mr. and Mrs. Hamilton Wilkins, Jr. (Mary Frances Wideberg), Lake Park, Fla.; Mrs. James L. (Billie Carolyn Davis) Chambers, Montgomery; Maj. Hugh P. Killingsworth, Maxwell Field, Montgomery; Robert S. Hoskins, Murfreesboro, Tenn.; Charles Q. Hall, Fortson, Ga.; John R. Burke, Doraville, Ga.; Mr. and Mrs. Robert E. Baker (Virginia Fletcher, '48), Pensacola, Fla.

Bevis M. Traylor is an adjuster for Calvert Insurance Co. in Macon, Ga.

Thomas P. Fuller is credit manager for The National Supply Co. (oil well supplies) in Dallas, Tex. He and his wife, Juanita Arnold, '46, have two daughters, Harriett Grace and Rebecca Ann.

Carl Barley is principal of the Bonifay High School, Bonifay, Fla.

Charles S. Henagan, Jr., former Southern Bell transmission maintenance supervisor in Atlanta, is district plant manager for Southern Bell in Athens, Ga. He began his telephone career in Birmingham in 1948.

Conro Leon Olive, Jr., is a forester with TVA in Paris, Tenn.

Donald C. Stafford is a draftsman with the Chicago Bridge and Iron Co. in Birmingham.

Byron L. Bland, Jr., is farming in Georgetown, Ga.

Otho M. Hale is with the Experiment Station in Moultrie, Ga.

(Continued on page 9)

Ben Hagler To Head Clemson Department

Clemson, S. C., April 24—Dr. Thomas B. Hagler, for nine years associate professor of horticulture and associate horticulturist at Auburn, has been appointed head of the Clemson College department of horticulture.

He succeeds A. M. Musser, who retired in February, and assumes his duties July 1.

Dr. Hagler, a native of Louisville, Ala., is a 1939 graduate in agricultural education at API, where he transferred from Berry College. He earned his master's degree in agricultural education at Auburn in 1947 and the doctorate in horticulture at the University of Maryland in 1954.

BEN HAGLER . . . department head

The new Clemson department head has a lifetime teaching experience. He taught vocational agriculture at Beatrice, Ala., High School and Lee County High School, Auburn, three years each, from 1939 to 1945. He joined Auburn in 1945 as an assistant professor and assistant horticulturist, being promoted to associate professor and associate horticulturist three years later.

Dr. Hagler, author of 53 research publications since 1949, is chairman, southern region of the American Society of Horticultural Science; vice-president of the Phi Kappa Phi, national honorary scholarship fraternity; president of Auburn PTA and lieutenant governor of the Alabama district of Kiwanis.

He is also a member of Gamma Sigma Delta, national honorary agriculture fraternity; Sigma Xi, honorary science fraternity; the Alabama Education Association and the American Society of Plant Physiology.

Dr. Hagler served as superintendent of the adult division of the Methodist Church school, and a member of the official board, in Auburn.

He is married to the former Lucy Vinson, also a native of Louisville, Ala., and a graduate of Auburn (B.S., M.S.). They have three children.

THE AUBURN ALUMNEWS

LOVELIEST VISITOR TO THE PLAINS during Village Fair was judged to be the lass above—Miss Jerry Stone, sophomore at Woodlawn High in Birmingham.

Wherein Alabama High Schools Fail To Meet The Regional Standards

BY DR. AUSTIN R. MEADOWS
State Superintendent of Education

Why aren't 251 Alabama white high schools accredited by the Southern regional accrediting agency? The overall major reason is that these schools do not meet the minimum standards for accreditation.

What important standards are not met by the 251 white high schools? One of the most frequent weaknesses is too many pupils per teacher and too many pupils per class for some classes. The regional standard is violated if a teacher has more than 160 pupils per day in all classes combined. The standard is violated if there are more than 40 pupils in any single class.

Poor library facilities is another frequent weakness. The standard requires a trained librarian for each high school and additional trained librarians for large high school enrollments. The standard requires five library books per pupil enrolled in the school and this standard is not being met in many of these high schools. The average of five books per pupil must be representative of a list of books suitable for high school pupils—not just five books of any type. Five wild west books per pupil would not meet the standard.

The library room and reading and study facilities must be adequate. Library floor space without shelves and storage space, tables and chairs is not enough.

Science laboratory space and laboratory equipment are a third very frequent weakness. Some of these high schools are offering chemistry and physics without any laboratory equipment for pupil experiments at all. The writer taught chemistry and physics in an

old abandoned county jail. But, some of these high schools do not even have a jail house for chemistry or physics. Some of these high schools do not even have student bottle containers for chemicals and at least one high school has used miniature whisky bottles for chemical containers. Chemistry experimentation requires proper drainage facilities and proper disposal of gas created in experiments.

The shortage of teachers trained in special fields in which they are teaching is another serious weakness. It has been impossible to get teachers educated in math and science to teach these subjects due to higher pay in private industry.

All of the regional standards could be met if Alabama provided sufficient funds for buildings and school operation. Alabama is now able to provide funds to meet regional standards without undue burden if the burden is on the basis of our economy. Alabama has just finished the year with an average per capita income estimated at over \$1,300 per individual compared to \$268 in 1940. Obviously, we as a people can pay a lot more for education on an average per capita income of \$1,300 than on \$268. What a state thinks of its children is reflected in the kind of schools it provides for them.

MORE THAN WOMEN

Edgar Wallace, who was certainly not a highbrow himself, was asked by a newspaper reporter in Hollywood some years ago to define one. "What is a highbrow?" he said. "A highbrow is a man who has found something more interesting than women."—Russell Lynes, *The Taste-Makers* (Harper) (As quoted in QUOTE).

Auburn Club News

MIDDLE TENNESSEE CLUB ORGANIZED

By Warren Browning, '48

Auburn alumni and friends of Middle Tennessee staged their second get-together May 3 in Manchester, Tenn., at the Fifth Wheel Restaurant. They elected officers, saw the 1957 Football Highlights, enjoyed dinner, and held a get-acquainted session.

Robert W. Kaisner, '43, Ed Prather, '47, and Al McCartney, '42, all of Tulsa, were instrumental in arranging the meeting.

Officers elected are James G. Mitchell, '54, president; James D. Young, Jr., '56, vice-president; Warren J. Browning, '48, secretary; James W. Wagnon, '55, treasurer; and John C. Blevins, '57, social chairman.

A total of 38 guests attended the Saturday organizational meeting. They were: Mr. and Mrs. Albert L. McCartney, '42; Mr. and Mrs. Warren J. Browning, both '48; Mr. and Mrs. Rupert C. Mayfield, '56; Mr. and Mrs. James W. Wagnon, '55; Mr. and Mrs. Robert M. Wagnon, '56; Mr. and Mrs. James G. Mitchell, both '54; Mr. and Mrs. James D. Young, '56; Mr. and Mrs. Barney M. Davis; Mr. and Mrs. Marion L. Laster, both '56; Sherbert L. Higgins, '48, and Mrs. Higgins, '49; Mr. and Mrs. Robert W. Kaisner, '43; Capt. and Mrs. Carl L. Houston, '48; Dr. and Mrs. Harry E. Nisbett, '56 and '55, respectively; Collier E. Harper, '56; Michael R. Collier, '55; E. Earl Lindsay, '56; William E. Prather, '47; John E. Terry, '51; and Richard T. Alexander, all from Tullahoma.

Others present were Mr. and Mrs. John C. Blevins, '57 and '52, respectively; Winchester; Dr. and Mrs. Karon R. Jennings, '50 and '49, and Dr. James F. Short, '40, from McMinville; and Charles B. Simpson, '57, Manchester.

Everyone present expressed the desire to hold a rally Friday evening preceding the Auburn-Tennessee game of September 27. All interested parties, including those not attending, are requested to keep that date open. Definite arrangements will be announced at a later date.

BESSEMER RECEIVES CHARTER

On Saturday, April 17, Roy B. Sewell, '22, president of the Auburn Alumni Association presented the charter for the newly organized Bessemer Auburn

Club to Dr. B. H. Johnson, '36, Bessemer president, before some 300 Auburn boosters.

Charter Night Banquet was held at Holiday Inn with Basketball Coach Joel Eaves sharing guest honors with President Sewell. Receiving the charter with President Johnson was Henry W. Sweet, one of the organizers of the four-month old Bessemer Club.

The Club presented luggage to four seniors from the 1957-58 Tiger cage crew, which took second place in the Southeastern Conference and defeated National Champion Kentucky in Birmingham. Boys receiving the luggage were Guard Bobby Tucker, of whom Eaves said, "He scrapped his way onto the team"; Forward Terry Chandler, who "became a real hustler and rebounder"; Center Bill McGriff, who "came back to the team from handicaps", and J. B. Bearden, "one of those kids who put a lot into it."

Other officers of the new club are John Owen Williams, Jr., '47, vice-president; Charles R. Jager, '32, secretary-treasurer, and executive committee members Col. M. D. Johnson, '26, Bill Grimes, Euil Snitz Snider, '29, Clay Jones, '32, and Henry Sweet, '24.

COLORADO ARMED FORCES ALUMNI MEET

By Lt. James E. Martin, '54

Auburn alumni at Fort Carson, Ent Air Force Base, and Colorado Springs, Colo., are meeting monthly to strengthen their ties with the Loveliest Village. On April 3, they met in the Stonewall Room of the Ent Air Force Officers Club, which was decorated in familiar orange and blue with a huge tiger behind the main table.

Program for the meeting was fellowship, supper, and viewing the Auburn-Georgia Tech game film. The group is viewing the Auburn-Alabama game film this month, with 1957 Highlights scheduled for June.

Those attending the April meeting were: Lt. Col. and Mrs. Tom Nash, '34; Lt. Col. Byron E. Cowart, '37; Maj. Samuel C. Nethery, '30; Maj. Leonard E. Young, '43; Capt. and Mrs. Edwin B. Mixon, '49; Capt. and Mrs. Fred E. Glover, '49; Capt. and Mrs. Claude A. Cowart, '48; Lt. James E. Martin, '54; Sgt. and Mrs. Marshall B. Lingerfelt, '53; and Ernest F. Mills, '41.

ALUMNUS BECOMES BANK PRESIDENT—

FAMILY GROUP—Papa's promotion brought the Hood family together for a happy pose before the photographer. They are (left to right) Marsha Marene, Mrs. Hood (Bess M. Means, '47), Deborah Lee, and Lee R. Hood, '47.

On May 1, 1958 Lee R. Hood, '47, assumed his duties as President of The Hood System Industrial Bank of Raleigh, N. C., to succeed his father, Gurney P. Hood, who has resigned as president but retains his position as chairman of the board of directors.

Lee worked for Eastern Air Lines from 1947 until April 1952. He was first elected cashier of the bank April 22,

1952, the day the bank opened, and held this position until January 1954 when he was elected executive vice president.

He has, also, served as a member of The Board of Directors since January 1953. Lee is now secretary of The Raleigh Clearing House.

Lee and his wife are both members of the Ridge Road Baptist Church, Raleigh, N. C.

Inman and they have two children, Becky, 8, and Buster, 5. "Mrs. Alabama" is chosen on the basis of homemaking ability, personality, poise, attractiveness, and community activity.

New Addresses: Byrne W. Stewart, Columbus, Miss.; Edgar B. Thompson, Coral Gables, Fla.; Quentin P. Umphrey, Dothan; Larry M. Glasscock, Birmingham; Charles O. Pyron, Dayton, Ohio; William Henry Thomas, III, Amityville, N.Y.; William E. Blankenstein, Natchez, Miss.; Mixon I. Nichols, Roanoke; Preston S. Bailey, Jr., Monroeville; Parrish B. Draper, Fairfax; Herbert V. Willard, Fairfax; William A. Weed, Jr., Phenix City; Thomas H. Laseter, Dothan.

1950

Viola O'Bryant teaches in Bessemer.

Richard L. Stafford is pursuing further studies at Vanderbilt University.

Mr. and Mrs. Walter Boyd Hinton, Jr. (Virginia Cooksey, M.S. '48) are living in Huntsville, where he is a technical writer for Chrysler Corporation. He was formerly a technical writer and editor for Parkhead Aircraft Corp. in Marietta, Ga.

Charles E. Murdock is an engineer for the Alabama Power Co. in Birmingham.

Billie P. Watkins is a salesman for Swift & Co. in Atlanta.

Born: a son, Whitfield Clements, to Mr. and Mrs. Samuel Benjamin Hayley on March 29 in Birmingham.

Coker Barton has resigned his position as head football coach at B. B. Comer High School in Sylacauga to enter private business.

Born: a son, Mark David, to Mr. and Mrs. Herbert Patterson of West Peabody, Mass. on Feb. 28. They have another son. Mr. Patterson is a design engineer with the Small Aircraft Engine Department of General Electric.

Paul O. Phillips, Jr., is an electrical engineer at Redstone Arsenal in Huntsville.

Richard E. Zeiger is a religious edu-

Alumni Association's April Guest List

April visitors to the Plains and guests in the Auburn Alumni Association's Union Building offices were: Eron Ingle, Jr., '55, Montgomery; John B. Cotton, '54, Trussville; James R. Sexton, '57, Pennsauken, Pa.; Hugh Morris, '49, Langdale; William McQueen, '34, Tallassee; W. C. Sugg, '31, Kalamazoo, Mich.; John T. Roach, Jr., '55, Birmingham; Sidney Scarborough, '37, Atlanta; Arnold Kring, '56, Fayetteville, Tenn.; Sgt. Norman B. Feehan, Jr., Columbia, S. C.; Mrs. Jane Hollis Feehan, '58, Columbia, S. C.; Ens. Thomas L. Cochran, APO, San Francisco.

Also, James A. Griffin, '55, Thorsby; Mary Frances Watson, '47, and Harvey T. (Cotton) Watson, '48, Milwaukie, Wis.; Jimmy Hitchcock, '33, Montgomery; Eleanor Whitelaw, '36, WRBL, Columbus, Ga.; Robert Moore, Jr., '57, Birmingham; Irving Patrick, '24, Birmingham; B. B. Marsh, '23, Montgomery; Capt. Richard D. Cousins, '48, Eglin AFB, Fla.; Lt. and Mrs. Tim C. Ford, '56, APO, New York; Robert W. McMillan, '51, Milledgeville, Ga.; Lt. Billy G. Hughey, '57, Fort Sill, Okla.; G. W. Ward, '35, Glencoe; Sib Paul Gauntt, '54, Parlin, N. J.; T. E. Oliver, '52, Montgomery; Walt Whitman, Jr., '33, Troy; Arthur Moore, '54, Anniston; Joey West, '57, Selma; and Nick Butler, '56, Atlanta.

cation worker at Howard College in Birmingham.

Born: a daughter, Bobby Anne, to Bobby Jean Cook Lamb (Mrs. James H. Lamb) on Feb. 17. Mrs. Lamb is a druggist and co-owner of Cottonwood Drug Co., Cottonwood.

Alfred B. Carroll is with the Alabama State Department of Agriculture in Montgomery.

Lum William Gillis is an inspector for the Federal and State Elevator Co. in Mobile.

(Continued on page 10)

ALUMNALITIES—Continued

William R. Cauthen is a drug salesman in Metairie, La.

Dr. J. Floyd Hall, principal of Fairfax School, has been elected vice-president of the Principal's Division of the Alabama Education Association.

Capt. John D. Cooper, Jr., has been assigned as Production Officer, Aeronautical Equipment Division, at Wright-Patterson AFB, Dayton, Ohio. Capt. Cooper went to his present assignment after completing a 13-month Graduate Industrial Administration course at the Air Force Institute of Technology. He is married to Rebecca Ward, '45, and they have three children: Barbara, 10; Carolyn, 6; and Patricia, 4.

New Addresses: Thomas B. Sellers, Andover, Mass.; Charles D. Hotsetter, Mobile; Robert S. Turner, Atlanta; Robert S. Ingram, Goodlettsville, Tenn.; Mr. and Mrs. Shelley M. Bostick, (Lyda Jean Smith) Knoxville, Tenn.; Mr. and Mrs. Donald D. Swink (Anne Rish), Albany, Ga.; Col. Coleman O. Williams, McGuire AFB, N. J.; Jean P. Brantley, Pensacola, Fla.; Harry E. Johnson, Jr., Montrose, Colo.; Mrs. Thelma Ward Muldore, West Point, Ga.; Capt. Mack E. Albright, Moody AFB, Ga.

1949

Born: a son, Eric Holt, to Mr. and Mrs. Kinnie R. Sutton (Jean Holt) of Atlanta on March 25. Kinnie Sutton is

executive vice-president of Home Builders Association of Georgia.

Jack D. Patten is assistant county agricultural agent in Crestview, Fla.

Married: Carolyn Horn Foster to Martin L. Beck, Jr., in Auburn on March 15. They are making their home in Auburn.

Married: Tawana Sue Morris of Gould, Okla., to Capt. Thomas H. Temple, Jr., at Kelly AFB, Tex., on Feb. 2.

William T. Richards is with the Bay County School System in Lynn Haven, Fla.

Conrad L. Hartzog is personnel director for Clearwater Finishing Co. in North Augusta, S. C.

Robert M. Carlisle is with the research division of Convair Air Lines in San Diego, Calif.

Robert B. McNutt is a soil scientist with the Soil Conservation Service in Montgomery.

Don H. Higginbotham is a chemist with DuPont in Grifton, N. C.

George Edward Richardson is a civil engineer with the Inter-American Geodetic Survey in Quito, Ecuador.

Mrs. J. E. (Mary L. Steele) Hollowell is a clerk-typist with the U. S. Soil Conservation Service, Lake City, Fla.

Mrs. Nancy Gibson Inman, Ensley, was crowned "Mrs. Alabama" on April 18. She is currently competing in the "Mrs. America" contest in Ft. Lauderdale, Fla. She is married to Thomas E.

YOUNG SCIENTIST—Leon Hartwell Allen, Jr., who graduates this quarter in agricultural science with one of the top academic records—2.95 out of a possible 3.00—ever scored at the Alabama Polytechnic Institute, is shown in research laboratory of the Agronomy and Soils Department where he has worked as student assistant. Allen has accepted a fellowship to do graduate work in soil chemistry at Cornell University. He is a native of Beauregard.

ALUMNALITIES—Continued

Russell I. Berry teaches at Sidney Lanier High School in Montgomery.

Mr. and Mrs. Irby D. Redditt (Mary Louise Stuart) live in Theodore, where he operates the Redditt Drug Store.

Born: a daughter to Mr. and Mrs. John Brnilovich of Northfield, Ohio, on March 24.

Born: a daughter, Juliamay Drennen, to Mr. and Mrs. Felix T. Hoke of Birmingham on March 18.

Ross Lacy Brooks is an engineer with Allis Chalmers manufacturing plant in Gadsden.

William R. Hawkins is farming in Bluffport community in Sumter County. He has recently installed his own feed-lots, enabling him to hold late calves over for early spring markets.

New Addresses: Dr. Orello F. Hunter, Nashville, Tenn.; Charles W. Gulsby, Graceville, Fla.; John T. Hughes and wife, Gloria Herring Hughes, Birmingham; Mrs. Alf (Barbara Eddins) Van Hoose, Birmingham; William M. Burgin, Birmingham; William V. Wheeler, Jr., Lawrenceburg, Ind.; Louise E. Klein, Weatherford, Okla.; Douglas A. Fuller, Nashville, Tenn.; Mr. and Mrs. Leslie A. Sanders (Gene Wilson, '51), Trion, Ga.; Sharron W. Rayburn, Graceville, Fla.; Dr. Nathan J. Thomas, Shelbyville, Tenn.; Richard H. Fuller, West Point, Ga.; Samuel Q. Bass, Sanford, N. C.

1951

Louise Sanford teaches in the Spring-branch Schools in Houston, Tex.

Born: twin sons, Patrick James and Michael Forrest, to Mr. and Mrs. James Forrest Ryckley (Barbara Ann Watson) in Atlanta on April 11. They have two other sons and one daughter.

New Addresses: John K. Boyett, Winston-Salem, N. C.; James H. Newman, Fairfield; Fredrich A. Voehringer, Jr., Decatur; Lt. Eldred C. Croft, Manassas, Va.; Ronald Tyre, Eau Gallie, Fla.; Joe M. Langdon, Birmingham; J. Richard Carr, Birmingham; Charles William Skipper, Carlsbad, N. Mex.; Paul J. Herring, Birmingham; Herbert O. Burton, Burlington, Mass.; Mr. and Mrs. Joe G. Caraway (Betty Jean Lumpkin), Valdosta, Ga.; Lt. Daniel D. Hall, Rolla, Mo.; Dr. William Kyle Hunter, Columbia, Tenn.

Robert M. Boyd, Jr., is a salesman for the Virginia-Carolina Chemical Corp. in Montgomery.

Clifton F. Casady, Jr., is a representative of Hartford Fire Insurance in Atlanta.

James W. Covington is a pharmacist with Price Drug Co. in Montgomery.

Dr. Matthew D. Wiggins operates Wiggins Veterinary Hospital in Cleveland, Miss.

J. Clanton Jenkins is herdsman for the Alabama Agricultural Experiment Station in Auburn.

Watson H. Crawford, MS, '51, has been appointed an adviser to the Educational Development Section, U. S. Army Infantry Center at Ft. Benning, Ga. He was formerly physical training instructor on the Combat Conditioning Committee, Staff Department, U. S. Army Infantry School.

Frank R. Thomas is a laboratory technician with T.C.I. in Birmingham. James H. Spence is teaching in the schools in Summerville, Ga.

Allen W. Jones has a teaching fellowship at the University of Alabama, where he is studying for a Ph.D. in history.

Born: a daughter, Pamela Ann, to Mr. and Mrs. J. William Myers of Birmingham on April 2.

Russell Estill teaches in Symrna, Ga. Harry E. Camp is farming with his father in Estaboga.

Married: Kathryn Ann Kline to James Justin Devitt in Suffield, Ohio, on May 10. They are living in Akron, where they are both employed.

Born: a daughter, Donna Robyn, to Mr. and Mrs. Robert C. Floyd, Jr., of McComb, Miss., on April 20.

Born: a daughter, Donna Jeanne, to Mr. and Mrs. William D. Brown (Doris Holmes, '48) of Woodland Hills, Calif., on April 12.

Mrs. Malcolm G. (Sandra Smith) Freeman is a nurse with U. S. Navy Hospital 115 in Cuba.

In Memoriam — '99 Through '57

Mrs. Hattie Phelps Chalker, '99, of Citronelle, died in Washington County Hospital on March 13, 1958. She is survived by her husband the Rev. I. W. Chalker; three sons, the Rev. John F. Chalker, Hollidaysburg, Pa.; the Rev. Thomas P. Chalker, Birmingham; and Robert P. Chalker, Amsterdam, Holland; a daughter, Mrs. James T. Bergen, Lancaster, Pa.; a sister, Mrs. F. P. Bledso, Tuskegee; and nine grandchildren.

Mrs. Emma Beall Street, '00 (MS, '01), died at her home in Oxford on April 24, 1958, at the age of 77. Survivors include her husband, George J. Street, '09; a son, W. C. Street, Montgomery; two daughters, Mrs. Sarah Louise Ames, Arlington, Va., and Mrs. Daisey Lee Harmon, Oxford; a brother, Charles S. Culver, '03, Gadsden; and three grandchildren.

Clarence Edward Mohns, '10, retired General Electric Co. official, died at his home in Atlanta on March 27, 1958. Born in Birmingham, he went to Atlanta in 1912. He had been a member of Avondale Lodge No. 476, F.&A.M., Birmingham, since 1913 and was a deacon of the First Presbyterian Church in Atlanta. He was a member of Kappa Alpha.

Mr. Mohns retired from General Electric in 1954 after more than 40 years of service. He was serving as district superintendent of electrical installations and engineering services at the time of his retirement.

Survivors include his wife, the former Hazel Apps of Schenectady; a son, Henry Edward Mohns, '40, Schenectady; a sister, Mrs. Murdock M. Watkins, New Orleans; and a brother, James C. Mohns, '16, San Francisco.

Daniel Andrew Helmich, '17, died in Birmingham on August 25, 1957. A loyal supporter of API, he used his influence to assist many young engineers as they embarked on their careers. Survivors include his widow, Mrs. D. A. Helmich, Birmingham.

The Rev. Berta Leon Balch, '18, died in Tuskegee on April 23 after several days of illness. He was a Baptist minister and former superintendent of education for Macon County. He retired as school superintendent in 1955.

Mr. Balch, who was 74 at the time of

his death, was also chairman of the Macon County Board of Education, a past president of Tuskegee Rotary Club, and a moderator of the Tuskegee Baptist Association.

Survivors include his widow; a son, the Rev. Leon Crawford Balch, Chattanooga; a daughter, Mrs. Helen Martinson, Houston, Tex.; three brothers, Henry H. Balch, Huntsville; the Rev. S. W. Balch, Birmingham; and J. A. Balch, Madison; three sisters, Mrs. E. W. Clift, Atlanta; Mrs. Henry Hobb, Decatur; and Mrs. D. C. Broyles of Madison.

Lt. Col. Herbert Harris, U. S. Army Reserve officer, died at his home in Ayer, Miss., in late April, 1958. He served in both World War II and the Korean War.

Survivors include his wife, Mrs. Laura Vonzandt Harris, '44; a daughter, Mollie Harris of Ayer; his mother, Mrs. Susie Harris, Oneonta; four brothers, Luther Harris, Birmingham; Charlie Harris, Blountsville; the Rev. Alton Harris, Trenton, Tenn.; and Hubert Harris, '36, Auburn; three sisters, Mrs. J. W. Manning, Hanceville; Mrs. J. T. Lamont, Hanceville; and Mrs. Cecil Warren, Oneonta.

James Carter Slaughter, '40, died in Buffalo, N. Y., on March 26, 1958. He was a production manager for Olin Mathiessen Company and resided in Tonawanda, N. Y.

Edward A. Gray, '43, died suddenly at his home in Blakely, Ga., on April 10, 1958. Mr. Gray had been in Blakely for nine years, where he owned and operated a jewelry store. Before going to Blakely, he spent seven years working in the jewelry business with his brother-in-law, T. I. Jockisch, in Auburn.

Survivors include his wife, Mrs. Eloise Bass Gray; a daughter, Jeanine, 12 years old; his parents, Mr. and Mrs. E. A. Gray of Shorterville; and his sister, Mrs. Mable Gray Jockisch, '39, Auburn.

Ens. Rex Warren Roberts, '57, and his flight instructor, were killed on April 14, 1958, when their plane crashed in a heavily-wooded area near Cantonment, Fla. The crash occurred on a routine flight from Corry Field in Pensacola. At Auburn, Roberts was active in Westminster Fellowship while he was an API student.

(For complete 'In Memoriam' sketch see the April, 1958 ALUMNEWS. The picture was delayed enroute from the engraver. The ALUMNEWS will appreciate pictures, whenever possible, with death notices.)

1952

Mr. and Mrs. Floyd C. Replogle (Florence Burns, '51) are teaching at the Sydney Phillips Junior High School in Mobile.

Born: a son, Mark Lynn, to Mr. and Mrs. Douglas L. McCrary of Birmingham on March 13.
